

PUBLISHED DAILY AND TRI-WEEKLY BY EDGAR SNOWDEN.

SATURDAY EVENING, MARCH 11.

The chief reason the protectionists assign for maisteining the present high tariff, and the only one that has any effective strength with the voters, is that such a tariff protects the free labor of America against the pauper labor of Europe, and keeps up the price of the former. If this be so it is the only conceivable reason why the country should have a protective tariff at this stage of its existence. If this be not so, no man can assign a rational cause for a tariff that doubles the price of aimes; everything the laboring man consumes. That it is not so is conclusively demonstrated by an incident that has just occurred at the Phoenix Iron Works in Pennsylvania, where a strike of the employes was brought to a sudden close in favor of the employers by newly arrived foreigners who gladly took the places of the strikers at the old rates. The monopolists' pretence of protecting labor is a transperent bamtag, that can no longer guil any intelligent workman. If they really desire to protect American labor, why don't they lay a tax upon the importation of foreign laber? But isstead of that they wish to flood the country with foreign cheap labor, as shown by their votes their forces were led by Mesers. Hoar and tal movement in Virginia."

The vote on the question of the adoption of the new rules which the republicans are trying to get through the House of Representatives will enable the people of Virgicia, says the Richmond Dispatch, to know at once the party relations of Mosers, Paul and Fulkerson. Those of the peop's of Virginia who live in this s clion of the State, don's require any more evidence to satisfy them about the party relations of Messrs. Paul and Falkerson. When these two gentiemen voted for Keifer, a probounced bloody shirt radical, for Speaker of the House, and against Randall, a Northern domeorat with Southern sympathies, they wanted every tody to know exactly their party relations.

Quite an exoitement over the replies wes macifest in the conference, and a number of the preachers arcsa and asked what the answers were. Rev. W. T. D. The Bishop acswered that it was explained that the query concerning tobiceso was simply a query, and not a rule. Mr. Clemm appeared to our sider that a promise to abstain from the use of tobacos was requisite fully as accept the decition of itinerarcy. The ministers who use the weed did not take this view of it at all. The debate was growing rather worm when the previous question was called on cocapting the candidates. The vote in farer of the candidate who had said to the first instance that he would not abstric was very nearly uponimous, not more than three votes being in the negative, and the result was hailed with arplause, not only on the floor of the house, but a'so to the gelleries, and by some few of the fair BCX.
